DELIVERING FINE FOOD

Welcome to the Autumn Winter edition of the Cress Co Catalogue

Putting this season's collection together has been a real joy. Our buying team have been busy sourcing over 300 exciting new products, all chosen for their quality, originality, and ability to perform on your shelves. Among the highlights are the indulgent Yorkshire Kitchen Butters handcrafted to create flavours like salted caramel, honey & cinnamon, and pistachio. These were such a hit in the office – especially on warm toast – that we couldn't resist bringing them to you.

We also love the Italian Bio Orto range of organic pasta sauces, pesto and passata – gorgeous products in beautiful packaging.

I'm also pleased to introduce Foreva Farmers, a range of premium tonics and mixers served in brand-new-to-market aluminium bottles, created by a family of farmers in Herefordshire, with sustainability at the heart of everything they do. Their drinks really are something special.

And, responding to your requests, we've added much loved names like Nice Rice, Lumberjaxe, White Masau, and Tayto Crisps to our range too.

All our new suppliers and additions to current ranges are showcased in their own section right at the start of this catalogue.

Of course, products are only part of the story. At Cress Co, we put you – our customer – first in everything we do. We focus on service, availability, and reliability. Every member of our team, from drivers to warehouse staff to directors, shares this mindset. If there's ever an issue, we go above and beyond to solve it. That might mean our Managing

Director and founder, Joe, personally making a delivery, or our transport team arranging a special collection of stock from suppliers to ensure we have it available for you.

We've expanded our delivery network to offer more frequent coverage and invested in our fleet, which now includes over fifty dual temperature vehicles of varying sizes, enabling us to jointly deliver our ambient and chilled ranges. Currently, we fulfil over 800 orders a day, delivered right into your shop, with a 98.5% success rate for availability and reliability. And if any issues arise, we don't rest until they are resolved.

This year, our customer first commitment has been recognised in the most humbling way. We've been named The Grocer Gold Specialist Wholesaler of the Year, Associate of the Year 2025 at the Farm Retail Association Awards, and, for the eighth year running, Best Brands No.1 Distributor as voted by readers of Fine Food Digest. These awards mean the world to us because they're based on real customer experiences – mystery shopper calls, testimonials, and the voices of retailers like you.

Thank you for trusting us to be part of your business. On behalf of all of us at Cress Co, I hope you enjoy this season's catalogue and, as always, if there's anything more we can do, just let us know.

Foreva Farmers are on a mission to create the most sustainable, and best tasting drinks in the world. We make genuinely premium tonics and soft drinks from our Herefordshire family farm, made with natural ingredients and renewable energy. In fact, we power our canning line with electricity we produce, and we make the bubbles in our drinks using carbon dioxide that we collect from our renewable energy site. At the heart of our brand, is our family, Nick, Kate, Oliver, Charlie, & Joe. Three generations of farmers who have a shared passion for the land; and a passion for leaving this world in a better place than we found it. Every sip of Foreva Farmers is not just a delicious one, but it is a commitment to a healthier and happier future.

Life's a little sweeter when you embrace the mess. We believe that the best moments are the unplanned ones—the cake that's slightly wonky, the laughter that spills over, the dessert that's just as fun to make as it is to eat. Born from a love of bringing people together over something gloriously good, The Glorious Mess is all about effortless indulgence. We take tradition, shake it up, and make it easy for you to create something spectacular—no stress, no fuss, just pure joy. Because life can be messy, but dessert? Dessert should always be glorious.

At Lumberjaxe our journey began around the flames of our grandad's brick-built BBQ. Growing up, we spent countless days surrounded by family and friends where mealtimes always meant good food and good times. Today we're on a mission to bring the influence from outdoor cooking to the dining room table and get more families Cookin' Up Good Times. As Seen On Dragons' Den.

forevafarmers.com

Foreva Farmers are on a mission to create the most sustainable, and best tasting drinks in the world. We make genuinely premium tonics and soft drinks from our Herefordshire family farm, made with natural ingredients and renewable energy. In fact, we power our canning line with electricity we produce, and we make the bubbles in our drinks using carbon dioxide that we collect from our from renewable energy site. At the heart of our brand, is our family, Nick, Kate, Oliver, Charlie, & Joe. Three generations of farmers who have a shared passion for the land; and a passion for leaving this world in a better place than we found it. Every sip of Foreva Farmers is not just a delicious one, but it is a commitment to a healthier and happier future.

Jarritos was founded in 1950 by Don Francisco "El Güero" Hill in Mexico City. The name "Jarritos" translates to "little jugs" in Spanish, inspired by the traditional Mexican clay jugs used to drink water and other beverages. Jarritos is often associated with authenticity and quality, promoting a nostalgic connection to traditional Mexican culture and flavours. Pioneers of soft drinks they created the first national brand in Mexico and a market leader brand in the Mexican soda beverage category in the U.S.

JOLLY'S

CORNWALL-1896

From humble beginnings, one hot summer in 1896 John Jolly created a thriving soft drinks company. Growing from a small garden operation in the village of Carharrack, Cornwall, to a large factory in Redruth, this much-loved family business was in the hearts and minds of the Cornish people for over a hundred years. We are always passionate about using the best ingredients, all our soft drinks are made using our very own Cornish Spring Water and we source as many ingredients as possible on a local level where we can, for example, the Cornish Chillies in our Ginger Beer. As a brand we are extremely conscious about the environment and try to keep our footprint as low as possible, all our drinks are made and canned in Cornwall.

SPARKLING BOTANICALS

Nuisance Drinks create premium, sparkling botanical soda mixers that celebrate the wild side of nature. Sip or mix them, each of their drinks can be enjoyed straight up or served with the finest spirits. Inspired by the great outdoors and founder Hugo's family recipe, Nuisance set out to champion the unsung heroes in nature - turning hedgerow botanicals, often considered a nuisance, into daringly delicious drinks for your tastebuds to explore. They launched their trio of soda mixers in June 2021, using quirky and unique flavour combinations that are refreshingly good, with no stings attached!

Available in 4 flavours, Strawberry, Chocolate, Banana & our hugely popular Cookies & Cream, Millar Moo prides itself on being in fully recyclable packaging. Millar Moo was developed by Clarke Millar when he saw a gap in the market for a flavoured milk. Being Gluten Free, containing the natural high protein level of milk and being fat free, Millar Moo gives parents the confidence that this is a healthy product to have in the fridge for all the family.

In fact we only like making craft ciders as naturally and simply as possible – using the very best fresh apples, small batch techniques, wild yeasts and 100% juice. The resulting ciders are full of depth, character and as near to perfection as we can get them.

Founded by Steven Macatonia and Jeremy Torz in London in 2001, Union exists to make coffee better for everyone. For over 20 years, Union has been sourcing coffee direct from farmers around the world, working together with producers to increase both quality of coffee and livelihoods longterm. Focusing on craft roasting, coffee training and education, our ambition is to see high quality speciality coffee served around the UK in cafes, restaurants, homes – anywhere a cup of coffee is enjoyed. We work with the best baristas, roasters and coffee farmers to raise the bar continuously. Best beans for us, best prices and livelihoods for farmers, best taste for you.

THE GLORIOUS MESS

NEW

Life's a little sweeter when you embrace the mess. We believe that the best moments are the unplanned ones—the cake that's slightly wonky, the laughter that spills over, the dessert that's just as fun to make as it is to eat. Born from a love of bringing people together over something gloriously good, The Glorious Mess is all about effortless indulgence. We take tradition, shake it up, and make it easy for you to create something spectacular—no stress, no fuss, just pure joy. Because life can be messy, but dessert? Dessert should always be glorious.

PETER'S YARD

SMALL-BATCH
SLOWLY

FERMENTED
SOURDOUGH

Combining Swedish tradition with British craft, each batch of our sourdough derives from our 45-year-old mother, which is left to ferment for 16 hours before being baked.

It is this combination of delicate process and quality natural ingredients, that separates Peter's Yard from other crackers.

At Hawkhead Whisky Smoked in the West of Scotland we use only aged whisky casks from Scottish distilleries in our smokery. Scotland is renowned for its rich larder – with whisky at the heart of its global reputation. Contained in every drop of Scotch is a 500-year-old story of malting, distilling, ageing and skill. And from Viking times to the present day, foods preserved through salting and smoking have been a staple of both winter survival and royal banquets in Scotland. By using only aged out whisky casks – each one having serviced the whisky industry for several decades – and a smoking process that has remained largely unchanged for hundreds of years, we capture the heritage and flavour of Scotland in everything we produce.

The MAGIC'S in the Middle®

Biona products are ethically sourced and organic. All ingredients are grown on organic farms following the highest welfare and environmental standards. Built on an unwavering commitment to 100% organic, ethically and sustainably sourced food, Biona began life around a kitchen table in London over 30 years ago. Noel and Donata started experimenting with simple home-made granola, which they packed and sold in their pioneering organic food shop, Windmill Wholefoods. It was so popular; they quickly outgrew their kitchen table and Biona was born. Today the range has grown to over 400 organic products sold in over 40 countries. Yet, their mission to create a healthier future for you and our planet, through providing delicious, high quality organic food, remains as strong as ever. The family-run business is constantly evolving, by choosing Biona you are choosing a healthier future.

Astonishingly made on the only working Thorn Tower in the world, organically approved Blackthorn Salt is the ultimate transformative ingredient for today's kitchen. Poignant and bittersweet, with a taste echoing sea, Blackthorn Salt enhances the flavours of any meal. By using the incredible natural forces of the West Coast of Scotland, Blackthorn Salt focuses on flavour and crystal quality, as well as provenance and sustainability. Each crystal comes from locally gathered seawater, which has been trickled down and exposed to the wind and sun on the Thorn Tower. Acclaimed by the Scotland's National Chef as being by far the best salt he has ever used, award-winning Blackthorn is rightly proud of its methods and unique taste.

HONEST TOIL EXTRA VIRGIN OLIVE OIL

Honest Toil is a small collaborative project based just south of Kyparissia in Messinia, Peloponnese, Greece. Harvest here is far from the big-scale production of most olive oils, as everything is picked by hand, and properly cold-pressed within hours at the local press. We're determined to keep things as direct as possible, sharing the fruits of our toil at a sensible price, supporting the traditional Messinian harvest, and making sure that the oil on your table is produced and distributed in the most direct and sustainable way.

The result is raw and green, with a light peppery spice and flavours of fresh cut grass...

We've been growing garlic on the Isle of Wight ever since Granny Norah planted those first few cloves in her garden over 60 years ago. We have spent the many years since exploring its history and origins, experimenting with the many different varieties here on "the Island" and creating a range of garlic infused products from garlic mayonnaise to garlicky chutneys and from black garlic beer to garlic ice cream.

We have spent the many years since exploring its history and origins, experimenting with the many different varieties here on "the Island" and creating a range of garlic infused products from garlic mayonnaise to garlicky chutneys and from black garlic beer to garlic ice cream.

The Island Smokery have been smoking on the island for over 10 years. Our smoking process uses only high quality wood supplied by craftsman Eoin Leonard, from Stromness based Celtic drum makers, Belgarth Bodhrans. We take all of Eoin's offcuts and unwanted wood, which reduces his waste and avoids the need for us to transport suitable wood into Orkney.

TRUE TOMATO TASTE

SMALL-BATCH & HAND CRAFTED

For over 15 years, we've been growing tomatoes in the rich fertile soil of the Arreton Valley on the glorious Isle of Wight. Combining age-old traditions with modern-day innovation, we are passionate about growing tomatoes that taste the way they should.

We use all the tomatoes we grow each season, including those that are not pretty enough to pack or just too ripe and juicy. Making them ideal for our tasty range of tomato sauces, juice, and condiments, all designed to let our tomatoes shine. Each one created in small batches in the heart of our farm.

Antonio Rummo began making pasta in 1846, after many years of practising they started using a style called Lenta Lavorazione® means "slow processing". It has an al dente feeling, firm and resistant to the bite.

THE
**YORKSHIRE
PASTA**
COMPANY

Our bronze drawn pasta is made using locally milled wheat flour (a unique signature blend - as Durum wheat is not grown in the UK), traditional artisan methods and packaged in striking 100% recyclable paper bags. We dry our pasta on racks overnight at low temperatures, allowing flavour to develop and the pasta to mature. Each piece is bronze drawn to give it the superb rough, sauce-clinging surface. Our methods take two full days vs. mass-manufactured pasta taking just two hours - and you really can taste the difference! A sustainable approach to a classic product, we run Yorkshire Pasta HQ on Solar Energy, are plastic free and all our products are vegan and vegetarian friendly.

Thursdays Cottage have been hand making their products in small batches for over 55 years since the business was originally based in a little cottage of the same name in Somerset. Their production area was moved to Tiptree, Essex in 2001 but little else has changed especially with the way they produce their delicious products. Their cooks carefully watch over the small batches whilst they are bubbling away so that they get the care and attention they need to be extra special, they then hand pour their Jams & Marmalades into traditional jars so that the final product contains the most whole fruit possible to ensure a more flavoursome preserve.

Proper Nutty, the UK's only Smunchy peanut butter; is an artisan peanut butter that is perfect for spreading, baking, smoothies and dipping. Containing no palm oil or added sugar, suitable for vegans and being gluten free, each jar of Proper Nutty is packed with peanuts and delivers a completely unrivalled taste. High-oleic Argentinian peanuts are slowly roasted in small batches to develop a rich roasted flavour, before being carefully ground to a unique 'Smunchy' texture which is smooth enough to spread on your toast but retains a delicious nutty crunch. The still-warm peanut butter is poured into 100% recyclable glass jars or tins which preserve the full flavour and aroma of the peanut butter; whilst being a sustainable, plastic free packaging format. 'Nowt but Nuts' is 100% peanuts and 'Slightly Salted' has only natural Cornish sea salt added; it's peanuts, sea salt and passion, nothing more!

2.1 Unless otherwise stated, all prices are quoted net of Value Added Tax. All products with a * beside them are subject to VAT at the prevailing rate as at the time of the delivery.

2.2 All prices and case sizes are correct at the time of print, however while we will endeavour to maintain these for the duration of this catalogue, they are subject to change at any time and without notice.

3.1 Payment should be made in advance of, or on arrival of, the goods. Subject to the submission of satisfactory references, credit accounts may be established for approved customers. Statements showing invoices outstanding at the end of each month will be sent to all customers and such invoices shall, unless otherwise agreed (but subject in any event to 3.2 below) be payable by the last day of the next month. We reserve the right to suspend or remove a credit account at any time and without prior notice or reason.

3.2 Payment for all goods shall become due immediately if (whether you are a company or an individual):

- (i) Any accounts are in arrears or
- (ii) You enter into any composition or arrangement with your creditors or
- (iii) Any process of execution or distress is levied against you which is not paid out within 14 days from the commencement of such or you may commit any act whereon a bankruptcy or winding up petition can be founded or (if you are a company) a receiver is appointed or a liquidator is appointed save for the purposes of reconstruction or amalgamation.

3.3 If the buyer fails to make any payment on/by the due date then we, without prejudice to any other right or remedy available, shall be entitled to charge the buyer interest (both before and after any judgement) on the amount unpaid at the rate of 2% per month (a part month being treated as a full month for the purpose of calculating interest). All costs, including, but not limited to, legal costs incurred in recovering late payment will be passed on to the customer in full.

3.4 We reserve the right to withdraw credit facilities from customers who have breached our credit terms. In this case, we will require payment prior to, or at the point of delivery, for a length of time determined by us.

4.1 Each consignment shall remain our property until payment in full for such consignment has been received by us and we reserve the right to recover possession of any goods comprised in such consignment if the consignment is not paid for in accordance with these terms unless such goods have been sold by you in the normal course of business.

4.2 If payment is overdue we may (without prejudice to any of our other rights) recover or resell the goods or any of them and enter upon your premises by our servants or agents for that purpose and to recover all stock and other returnable containers which are our property.

5.1 Consignments shall be at your risk immediately on delivery to you. You must give notice in writing of any shortage in or of any loss or damage to the same during delivery both to our driver and by telephone to our office immediately on discovery and in any event within two days of delivery otherwise no liability for any such shortage loss or damage can be accepted. Consignments delivered via a third party courier or distribution partner must be inspected on arrival with any damage or shortages reported on the delivery note.

5.2 When we undertake to store or deliver goods our liability for loss or damage shall be limited to the invoiced price of such goods (inclusive of duty) and you should accordingly arrange your own insurance for the difference (if any) between the value of the goods at the date of such loss or damage and the invoiced price.

5.3 Liability for defective goods shall be restricted to the cost of the replacement of the same. No liability can be accepted for any consequential loss howsoever caused nor for any damage caused by misuse.

5.4 Buyers must take delivery of any specially ordered items obtained for them which are not part of our normal range.

5.5 Goods are not available on a sale or return basis. No goods shall be returned without prior agreement. Unless such agreement is obtained, no credit can be issued. A credit cannot be given for goods that are already price marked, have had packaging disturbed (or in an unreasonable condition), or have been incorrectly stored.

6 We shall have the exclusive right to appropriate any payments received from you in the discharge of any monies due for goods supplied to you.

7. In the event of war, invasion, act of foreign enemy, hostility, civil war, rebellion, revolution, insurrection or military or usurped power, we shall be relieved of liabilities incurred under this contract wherever and to the extent which fulfilment of such obligations is prevented, frustrated or impeded as a consequence of any such event or by any statute, rules, regulations, orders or requisitions issued by any government department, council of any other duly constituted authority or from strikes, lockouts, breakdown of plant or any other causes beyond our control.
